PRESENTATION EXPENDITURES / EARNINGS

Cost plan

The costs are divided into three columns (staff, project and material expenses) which themselves are listed by type of expenditure.

- *Reimbursement:* musical entertainment (bands etc.) can **only** be refinanced through reimbursements.
- *Wages* shall not exceed 79,20 €/90 Min. and should correspond to the qualification of the speaker/presenter.
- *Personal work load:* an hourly wage of 8,84€/h up to 12,50€/h, depending on the task's difficulty, can be stated in the financial plan as non cash personal investments by the applicant.
- *Material expenses:* commute by car between work place and home can be stated in the financial plan according to the federal commute reimbursement act with 0,20 Cent/km (up to 130,00 € maximum) and apart from that also DB train tickets (2nd class). Reimbursement is possible only after the presentation of the corresponding proof of payment.

Financing plan

- *Personal investment*

Personal investments are all cash equivalent efforts, especially money or other things, which should be used directly to finance the project in question and which are available to the applicant right from the start of the project. Personal investments are also fees paid by an event's audience, donations as well as contributions by sponsors. Furthermore the personal work load which will be provided in the process of the project is a personal investment.

The personal investment (cash or non-cash) should constitute **20% of the total costs**.

Proof of expenditure

At the end of the project the project responsible shows proof of the realisation of the venture in form of a short **fact report** (e.g. photos and press releases) and confirms the usage of the funds by filling in and signing the corresponding documents as proof of expenditure. Hereby all the costs and the total financing must be presented in relation to the realisation of the project. **(form I/II: proof of expenditure and listing of the bills)**. The fact report should make the questions of whether and how the goals were achieved visible (measurable data, e.g. reached audience). The proof of expenditure also covers filled in **participant lists** which need to be included as well. Costs which are covered by Resonanzboden need to be proven by the attachment of copies of the corresponding bills. Every single expenditure must be archived in a written form (wages, personal investments, reimbursements). The bill must not be dated before the date of the application.
